The Northwest Hydroelectric Association is comprised of hydro leaders from around the region. It is a vibrant and dynamic organization helping to improve hydro delivery in the Pacific Northwest. Now, as demand for clean, renewable energy continues to grow, it is an even stronger regional force.

The Annual Conference is the high point of the Association's year. The conference provides a forum for a wide range of water resource stakeholders to come together to assess the possibilities that lie ahead.

The Annual Conference also offers unique opportunities for those organizations active in hydro to take a more prominent role and to demonstrate their leadership and support.
