NWHA Meeting Policy- COVID

NWHA believes in protecting the hydropower family. All decisions are made with this in mind.

Due to the ongoing COVID outbreak, NWHA is taking the following measures to conduct meetings.

NWHA will follow all Oregon state mandates and CDC guidance for meetings and gatherings. As of October 5th, Oregon is requiring the wearing of masks in public spaces. NWHA is asking that attendees help protect each other and help NWHA comply with state requirements by wearing masks while indoors at our event. As the guidance is updated, we will adjust our policy.

We know that our hydro community is committed to safety and will work to keep each other healthy. If you are sick (including symptoms related to COVID-19, its variants, or any other contagious illness) we ask that you do not attend our event.

If you would like to learn about the on-site practices at the Marriott, you can visit their [website](#) for information.

As these are unprecedented circumstances, if you need to transfer your registration to another attendee due to circumstances, you may do so at any time without charge.
